

Eleventh Congressional District of Ohio, my friend Milton Grant.

Mr. Grant was the owner of Silk Screen Process Inc. for more than 50 years. He worked for the Cleveland Public Library, painted and was involved in many other business endeavors. I met Mr. Grant in 1981 in Cleveland when I ran for a Cleveland municipal judgeship. Mr. Grant was the owner of Silk Screen Process, Inc. I requested an estimate of the costs for the signs that I needed. This was my first run for public office and I had very little money. Mr. Grant, observing that I lacked the necessary funds to cover my order, extended credit to me. From that day forward he considered me part of the family and I knew that without the largess of Mr. Grant I would not have won that seat. I recently learned that I was not the only recipient of his kindness.

One day I realized that a friend of mine of many years, Margo Roth was Mr. Grant's daughter and that her sister, Paula had assisted me when I visited the business. I should have known that they were related to Mr. Grant, because they both exhibited the same caring and kindness.

Over the years I have celebrated graduations, weddings, births, homecomings, anniversaries, and successful elections with this wonderful Grant/Roth Family.

Mr. Grant was married to his wife Laura, who predeceased him in death for 61 years. He leaves to celebrate his life, a loving companion Roberta Silber, daughters Paula Rubinstein, Dr. Lee and Margo Roth, Bob, grandchildren, Michael Grant Jaffe, Karen Chaikin, Chip, Jennifer Jaffe Kaufman, Douglas, Julie Namy, Rob and 17 great grandchildren. His siblings, Ruth Buckland and Herman Goldstein and his grandson, Grant Roth, predeceased him.

Madam Speaker, I thank God for making Mr. Grant a part of my life and Mr. Grant for making me a part of his family. I ask all of my colleagues to join me in celebrating the wonderful 96 years of life of Mr. Milton Grant.

Michigan Radio, first known as WUOM, signed on July 5, 1948 with the first broadcast coming from the Angell Hall Observatory on the campus of the University of Michigan in Ann Arbor. HONORING THE LIFE OF PAT FERRIS

HON. DAN BOREN

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 24, 2008

Mr. BOREN. Madam Speaker, I rise today to remember a dear friend of Southern Oklahoma who passed away on July 20th, 2008 after a short battle with cancer. Pat Ferris devotedly served Johnston County as the District 1 Commissioner for nearly ten years and was a recognized friend of the entire community.

Pat lived most of his life in his home county, leaving briefly to pursue higher education through earning a bachelor's degree in Agricultural Education from Oklahoma State University in 1977. Ferris was an incredibly active member in the Johnson County community, but his true passion was working with Oklahoma youth. He was heavily involved with Future Farmers of America and the Johnson County Junior Livestock Association.

While a rancher in Connerville, Oklahoma for most of his life, Pat received the call of public service and ran for a County Commissioner position in 1998, winning in a hotly contested election. He was reelected twice, most recently in 2006. Throughout his tenure in the position of Commissioner, Pat worked on

issues important to his constituency. He was instrumental in preserving the county hospital and in the creation of a new jail.

Pat Ferris is not only dearly remembered by his wife Robin and their five children, but also by countless citizens in Johnston County, Oklahoma who he touched in the 53 years of his life. I stand today to honor and celebrate the life of this great Oklahoman.

NATIONAL HIGHWAY BRIDGE RECONSTRUCTION AND INSPECTION ACT OF 2008

SPEECH OF

HON. BOB ETHERIDGE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 23, 2008

Mr. ETHERIDGE. Madam Speaker, I rise today in support of H.R. 3999, The National Highway Bridge Reconstruction and Inspection Act.

In my home state of North Carolina there are hundreds of bridges that have been rated structurally deficient, and in my district alone there are over 150 bridges that have been rated structurally deficient. This bill enhances our ability to address this critical need.

H.R. 3999 will improve the safety of our nation's bridges by ensuring that they are properly monitored for repairs, and by ensuring that the federal funding that is set aside for their maintenance and repair goes towards that specific purpose. This bill authorizes an additional \$1 billion in fiscal year 2009, on top of the current \$4.5 billion authorized in the Federal Highway Administration's Bridge Program. In addition to this funding, this legislation requires the Federal Highway Administration to conduct annual inspections on bridges that are rated deficient, and inspect all other bridges every two years.

This additional funding, along with the mandated inspections, will go a long way towards insuring that the American public will have confidence in the bridges they traverse, without having to fear the disaster that occurred in Minnesota nearly one year ago.

Madam Chairman our nation's infrastructure is the engine that drives our economy, and the safety of our citizens also depends on the reliability of this infrastructure. I urge my colleagues to vote yes on H.R. 3999.
